Consumer Safety Information

This appliance is equipped with a grounded-type 3-wire cord (3-prong plug). This plug will only fit into an electrical outlet made for a 3-prong plug. This is a safety feature. If the plug should fail to fit the outlet, contact an electrician to replace the obsolete outlet. Do not attempt to defeat this safety feature.

Short Cord Instructions

A short power-supply cord is provided to reduce the risk resulting from becoming entangled in or tripping over a longer cord. Longer detachable power-supply cords or extension cords are available and may be used if care is exercised in their use.

If a longer detachable power-supply cord or extension cord is used, (1) the marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance, and (2) the longer cord should be arranged so that it will not drape over the counter top or table top where it can be pulled on by children or tripped over unintentionally. Since the appliance is of the grounded type, the extension cord should be a grounding type 3 wire cord.

Electric Power

If the electric circuit is overloaded with other appliances, your appliance may not operate properly. It should be operated on a separate electrical circuit from other appliances.

CAUTION: To prevent Plasticizers to migrate from the finish of the counter top or table top or other furniture, place **NON-PLASTIC** coasters or placemats between the appliance and the finish of the counter top or table top.

2. **To preheat:** Close the Lid and plug cord into a 120V AC outlet. Press the ON/OFF Button, the Power Light will go on indicating that the elements are heating. Each side of the Grill has separate heating elements, so if you are using both sides, the ON/OFF Button on each side must be pressed. Select desired temperature. The Variable Temperature Control allows you to cook your food at a specific heat setting (300° - 400°). Each side has an independent control, so you can cook at different temperatures on each side, or set each side to the same temperature, if so desired. Adjust the Variable Temperature Control to your desired temperature. See "Suggested Cooking Chart" on following page for specific details. Allow Grilling Machine to preheat for 5 minutes. Temperature will flash until temperature is reached. Once temperature is reached, unit will beep and display will stop flashing.
3. Use a "pot holder" to carefully open the Lid.
4. Slide the grease catching Drip Tray under the front of the unit.
5. Carefully place the items to be cooked on the grilling plate.
6. Close the Lid and allow the food to cook for the desired time. (Consult the Recipe Section at the back of this book for some suggestions.) The Power Light will be on until the On/Off Button is pressed to turn the unit off. ***Do not leave appliance unattended during use!***
7. After the desired amount of time, the food should be done.
Note: The Grilling Machine will automatically shut-off one hour after you have turned it on. To continue cooking, press the ON/OFF Button.
8. Press the ON/OFF Button to turn off the Grill. If both sides have been turned on, both ON/OFF Buttons must be pressed to the OFF position. Disconnect the plug from the wall outlet.
CAUTION: To avoid any sparks at the outlet while disconnecting plug, make sure the "Power On Indicator" is off (not illuminated) before disconnecting the plug from the outlet.
9. Use a "pot holder" to carefully open the Lid.
10. Remove the food using the Plastic Spatula provided. Be sure to always use either plastic or wooden utensils so as not to scratch the non-stick surface. Never use metal tongs, forks or knives as these can damage the coating on the grilling plates.
11. When cool, the Drip Tray may be removed and emptied. **Be sure the liquid is cooled before removing Drip Tray.**

Recipes

The Champ's Sausage Without Guilt

You can start your day with a sizzling sausage patty that not only tastes good, but is also good for you. This moist, flavorful sausage, served with a country-style biscuit, makes the complete breakfast. Choose ground turkey breast, which is lower in fat than ground turkey containing dark meat and skin. Turkey, especially the light meat, is a good source of niacin, which is an important B vitamin needed to maintain a healthy nervous system.

1 slightly beaten egg white
1/3 cup finely chopped onion
1/4 cup finely snipped dried apples OR
 1/2 cup finely chopped fresh red Delicious apple
1/4 cup seasoned bread crumbs
2 Tbsp. snipped fresh parsley
1/2 tsp. sea salt
1/2 tsp. ground sage
1/4 tsp. ground nutmeg
1/4 tsp. black pepper
1/8 tsp. cayenne pepper
1/2 lb. lean ground turkey breast

- In a medium size mixing bowl, combine the egg white, onion, dried or fresh apples, bread crumbs, parsley, salt, sage, nutmeg, black pepper, and cayenne pepper. Add the ground turkey and mix well.
- Shape the mixture into nine 2-inch wide patties.
- Preheat the Grilling Machine to 300° F and place the patties on the grill nine at a time. Close the Lid. Cook for 5 minutes or until the meat is no longer pink and the juices run clear, turning once or twice.
- Yield: 8 - 9 patties

This recipe is from "The Healthy Gourmet" (Clarkson Potter) by Cherie Calbom.

George's Sausage Texas Style

A spicy sausage with true Southwestern zip! These breakfast sausages are great served with a sautéed vegetable or fresh salsa and egg scramble. Buy 90% lean ground beef for the least-fat sausage. Ninety percent lean beef has 9 grams of fat with 4 of those grams being saturated fat; whereas 73% lean beef has 18 grams of fat with 7 of the grams being saturated.

1 slightly beaten egg white
1/3 cup finely chopped onion
1/4 cup seasoned bread crumbs
1/4 cup diced green chili peppers
1 clove (large) garlic, finely minced
2 Tbsp. snipped fresh cilantro
1 Tbsp. apple cider vinegar
1-1/2 tsp. chili powder
1/4 tsp. sea salt
1/8 tsp. cayenne pepper
1/2 lb. lean ground beef

- In a medium-size mixing bowl, combine the egg white, onion, bread crumbs, green chili peppers, garlic, cilantro, vinegar, chili powder, salt and cayenne pepper. Add the ground beef and mix well.
- Shape the mixture into eight 3-inch wide patties.
- Preheat the Grilling Machine to 360° F and place the patties on the grill eight at a time. Close the Lid.
- Cook for 4 - 5 minutes or until the meat is no longer pink and the juices run clear, turning once or twice.
- Yield: 8 patties

George Foreman's PowerBurger

A flavorful hamburger that we think tastes even better than its all-meat cousin! It pays to eat meals that minimize meat. To reduce saturated fat in a typical burger, you can cut back on the amount of meat and make up for it with plant-based ingredients. Bread crumbs and chopped vegetables have been added in this recipe. You could also try cooked rice, other grains or cereal. In addition, choose whole wheat buns; they typically contain one less fat gram than regular or even reduced-calorie buns.

If you settle for nothing less than a cheeseburger, Swiss cheese is 1 gram lower in fat than Cheddar, American or Monterey Jack with 8 grams of fat versus 9 in each ounce of cheese. However, reduced fat cheeses like Cheddar or Swiss contain half the fat with 4 grams per ounce. Mustard contains 1 gram of fat per tablespoon versus a whopping 11 grams of fat in a tablespoon of mayonnaise.

Top your burger in healthful style with dark, leafy green lettuce, shredded cabbage, fresh cilantro, basil or spinach.

1/2 cup chopped vegetables such as yellow onions,
green onions, zucchini, parsley (can be sautéed)
1/2 cup seasoned bread crumbs
1 1/2 lbs. lean ground beef

- In a medium-size mixing bowl, combine the vegetables and bread crumbs. Add the ground beef and mix well.
- Shape the mixture into eight 4-inch wide patties.
- Preheat the Grilling Machine to 360° F for 5 minutes and place the patties on the grill four to eight at a time. Close the Lid.
- Cook for 8 - 9 minutes or until the meat is no longer pink and the juices run clear, turning once.
- Yield: Serves 8

This recipe is from "The Healthy Gourmet" (Clarkson Potter) by Cherie Calbom.
