SUPPLEMENTARY INSTALLATION INSTRUCTIONS

(For Contractor Pack)

Housing Can
FV-05-08VSA1

Motor/Grille Assembly
FV-05VSB1, FV-08VSB1

Applicable to Models: FV-05VS1, FV-08VS1

READ AND SAVE THESE INSTRUCTIONS.

Please read these instructions carefully before attempting to install, operate or service the Panasonic Ventilating Fan. Failure to comply with instructions could result in personal injury and/or property damage. Please retain this booklet for future reference.

Product Service	12

GENERAL SAFETY INFORMATION

1. Do not install this ventilating fan where air temperature may exceed 40°C (104°F).
2. Make sure that the electric service supply voltage is 120V, 60 Hz.
3. Follow all local electrical and safety codes, as well as the National Electrical Code (NEC) and the Occupation Safety and Health Act (OSHA).
4. Always disconnect the power source before working on or near the fan, motor or junction box.
5. Protect the power cord from sharp edges, oil, grease, hot surfaces, chemicals or other objects.
6. Do not kink the power cord.
7. Do not install the unit where ducts are configured as shown in Fig. A.
8. Provide suction parts with proper ventilation.
9. This unit is UL listed for use over a bathtub or shower when installed in a GFCI protected branch circuit.

CAUTION:

1. For general ventilating use only. Do not use to exhaust hazardous or explosive materials and vapors.
2. Not for use in cooking area. (Fig .B)
3. This product must be properly grounded.

WARNING:

To reduce the risk of fire, electric shock or injury to persons, observe the following:

- A. Use this unit only in the manner intended by the manufacturer. If you have any questions, contact to the manufacturer.
- B. Installation work and electrical wiring must be done by qualified person(s) in accordance with all applicable codes and standards, including fire-rated construction.
- C. Sufficient air is needed for proper combustion and exhausting of gases through the flue (chimney) of fuel burning equipment to prevent backdrafting. Follow the heating equipment manufacturer's guideline and safety standards such as those published by the National Fire Protection Association (NFPA), and the American Society for Heating Refrigeration and Air Conditioning Engineers (ASHRAE) and the local code authorities.
- D. The Housing Can FV-05-08VSA1 must be installed with Motor/Grille Assembly FV-05/08VSB1 only.
- E. When cutting or drilling into wall or ceiling, do not damage electrical wiring and other hidden utilities.
- F. Ducted fans must always be vented to the outdoors.
- G. These models are UL listed for tub and shower enclosures.
- H. Solid state controls may cause harmonic distortion which can cause motor humming noise. To reduce the risk of fire or electric shock, do not use this unit with any solid-state control device.
- I. Before servicing or cleaning unit, switch power off at service panel and lock the service disconnecting means to prevent power from being switched on accidentally. When the service disconnecting means cannot be locked, securely fasten a prominent warning device, such as a tag, to the service panel.
- J. NEVER place a switch where it can be reached from a tub or shower.
- K. Not to be installed in a ceiling thermally insulated to a value greater than R40. (This is required for installation in Canada only.)
- L. Install the fan at least 1.5m (5 feet) above the floor, and the fan must be installed above a counter or major appliances that serves as a barrier.

UNPACKING

Unpack and carefully remove unit from carton.
Refer to the Supplied Accessories list to verify that all parts are present.

SUPPLIED ACCESSORIES (4 SETS)

(A) For Motor / Grille Assembly of model: FV-05/08VSB1

Part name	Appearance	Quantity
Grille		4

(B) For Housing Can of model: FV-05-08VSA1

Part name	Appearance	Quantity
Long screw (ST4.2X20)		24
Thumb screw		4
Screw I (ST4.2X8)		8
Screw II (ST4.2X10)		8
Suspension bracket I		4
Suspension bracket II		4
Suspension bracket III		4
Spacer		4

WIRING DIAGRAM

INSTALLATION I (JOIST MOUNTING-I)

1. Before installation, secure the fan body to adaptor by using thumb screw. (Fig.1)

IMPORTANT :

Remove the tape from damper and adaptor before installation. As shown below:

2. Insert the suspension bracket into the fan body and adaptor. (Select the suspension bracket as shown below)

Spacing a on center joists	Insert suspension bracket
12 inches	Refer to Fig. 2-1
16 inches	Refer to Fig. 2-2
19.2 inches vertical joists	Refer to Fig. 2-3
24 inches	Refer to Fig. 2-4

If spacing A on center joists is 24 inches, connect suspension bracket II and III(C4 mark to C4 mark) as shown below :

INSTALLATION I (JOIST MOUNTING-I) CONTINUED

3. Install the suspension bracket and the flange of fan body to joists by using long screws (ST4.2X20) according to Fig. 3.

4. Install the suspension bracket to joists by using long screws (ST4.2X20) and secure it to the fan body by using screw II (ST4.2X10). (Fig. 4)
5. Remove junction box cover and secure conduit or stress relief to junction box knock-out hole. (Fig. 5)
6. Refer to wiring diagram (page 3). Using wire nuts, connect house power wires to ventilating fan wires: black to black; white to white; green to green; Replace the junction box cover. (Fig. 5)

CAUTION:

Mount junction box cover carefully so that lead wires are not pinched.

7. Install a circular duct and secure it with duct tape or clamps.

INSTALLATION I (JOIST MOUNTING-I) CONTINUED

8. Finish ceiling work. Ceiling hole should be aligned with the edge of the flange. (Fig. 6)

9. Follow the Fig. 12-3, 12-4 (page 9) and Fig. 7 (page 8) of the original installation instruction to complete the motor/grille assembly installation.

INSTALLATION II (JOIST MOUNTING-II)

1. Disconnect plug connector from receptacle and remove adaptor from fan body before starting installation.

2. Insert the suspension bracket into the adaptor and secure it to joists by using long screws (ST4.2X20). (Fig. 7)

CAUTION:

Ensure that distance B is no more than 1/2 inch (13 mm).

If spacing A between joists is 21 1/4 to 23 1/2 inches, connect suspension bracket II and III (C4 mark to C4 mark) according to page 4. Select the suspension bracket according to spacing A as shown below.

Spacing A between Joists inches (mm)	13 1/4~15 1/2 (336~394)	16 1/2~18 3/4 (419~480)	21 1/4~23 1/2 (540~597)
suspension bracket	suspension bracket I	suspension bracket III	suspension bracket II & III

3. Follow step 5 to 7 of the Installation I (page 5) to complete the duct work and wiring.

4. Insert the suspension bracket into fan body (refer to step 2 of Installation I, page 4).

INSTALLATION II (JOIST MOUNTING-II) CONTINUED

5. Insert the fan body into joists. (Fig. 8)

IMPORTANT:

Make sure that adaptor claws are properly inserted into body slots.

6. Secure the fan body to adaptor by using thumb screw.

7. Secure the suspension bracket to joists by using long screws (ST4.2X20) and secure it to fan body by using screw II (ST4.2X10) in vertical direction. (Fig. 9)

8. Follow step 5 to 9 of installation I (page 5~page6) to complete the installation work.

INSTALLATION III (I-JOIST MOUNTING)

1. Before installation, Secure the fan body to adaptor by using thumb screw. (Fig. 1 of page 4)
2. Connect the suspension bracket III to fan body. (Fig. 10) (Select the hole by checking I-joist size fix the screw to the frame hole.)
3. Connect the fan body to the I-joist. (Fig. 11)
4. Follow step 5 to 9 of installation I (page 5~page 6) to complete the installation work.

INSTALLATION IV (BETWEEN JOIST MOUNTING)

1. Before installation, Secure the fan body to adaptor by using thumb screw. (Fig.1 of page 4)
2. Insert the suspension bracket into the bracket cover of adaptor side and the back of the fan body. (Fig.12) (select the suspension bracket according to spacing A as shown right)

INSTALLATION IV (BETWEEN JOIST MOUNTING) CONTINUED

3. Insert the fan body between joists.
Make sure the fan body is level and square (perpendicular) with the joists. (Fig. 13)

CAUTION:

Ensure that distance B is no more than 1/2 inch (13 mm).

4. Secure the suspension bracket to joists by using long screws (ST4.2X20). (Fig. 14, Fig. 15)

5. Secure the suspension bracket to fan body by using screw II (ST4.2X10). (Fig. 15)

6. Follow step 5 to 9 of installation I (page 5~page 6) to complete the installation work.

INSTALLATION V (WOODEN HEADER)

1. Before installation, secure the fan body to adaptor by using thumb screw. (Fig. 1 of page 4)

2. Install header between joists by using nails or screws.

3. Install the fan body and secure it by using long screws (ST4.2X20). (Fig. 16, Fig. 17)

4. Follow step 5 to 9 of installation I (page 5~page 6) to complete the installation work.

INSTALLATION VI (IN EXISTING CONSTRUCTION)

1. Installation in existing construction.

Installing the ventilating fan in an existing building requires an accessible area (attic or crawl space) above the planned installation location or existing ducting and wiring.

- (1) To install the ventilating fan, follow the procedures described in Installation II. Take the following precautions before installation.

CAUTION:

Check area above planning installation location to be sure that:

1. Duct work can be done and that area is sufficient for proper ventilation.
2. Wiring can be run to planned location.
3. No wiring or other obstructions shall interfere with installation.

- (2) Inspect duct work and wiring before proceeding with installation.

- (3) Plan suitable location for ventilating fan. (next to ceiling joist)

- (4) Before installation, provide inspection and maintenance access at a location that will not interfere with installation work shown in installation II.

- (5) First, remove ceiling section according to Fig. 6 of page 6.

- (6) Install ventilating fan.

2. Installation from accessible area above fan location.

- (1) Inspect duct work and wiring before proceeding with installation.

- (2) Remove ceiling section according to Fig. 6 of page 6.

- (3) Install ventilating fan.

INSTALLATION VII (WALL INSTALLATION-I)

IMPORTANT:

When the product is installed on the wall, the adaptor shall be faced upward. (Fig. 18)

1. Remove adaptor from fan body before starting installation. (Fig. 19)

2. Insert the suspension bracket into the adaptor. (refer to step 2 of installation II of page 6).

INSTALLATION VII (WALL INSTALLATION-I) CONTINUED

- Secure it to studs by using long screws (ST4.2X20). (Fig. 20)

IMPORTANT:

Ensure distance C is 3/16 of an inch (5 mm) during the installation process as follows.

Fig. 20

- Insert the suspension bracket into fan body (refer to step 2 of installation I, page 4).
- Secure the fan body to the studs by using long screws (ST4.2X20) (refer to step 5 to step 7 of installation II of page 7). (Fig. 21)
- Refer to the Fig. 12-3, 12-4 (page 9) and Fig. 7 (page 8) of the original installation instruction to complete the motor/grille assembly installation.

Fig. 21

INSTALLATION VIII (WALL INSTALLATION-II)

- Before installation, Secure the fan body to adaptor by using thumb screw. (Fig.1 of page 4)
- Insert the suspension bracket into bracket cover of adaptor side and the back of the fan body (refer to Fig.12-1 of page 8).
- Insert the fan body between studs. Make sure the fan body is level and square(perpendicular) with the stud. Ensure that distance C 3/16 inch (5mm).
- Secure the suspension bracket to studs by using long screws (ST4.2X20). (Fig. 22, Fig. 23)
- Secure the suspension bracket to fan body by using screw II (ST4.2X10) (refere to Fig. 4 of page 5).
- Refer to the Fig. 12-3, 12-4 (page 9) and Fig. 7 (page 8) of the original installation instruction to complete the motor/grille assembly installation.

Fig. 22

Fig. 23

INSTALLATION IX (WALL INSTALLATION-III)

This installation method is only for 12-inch and 24-inch joists.

1. Before installation, Secure the fan body to adaptor by using thumb screw. (Fig.1 of page 4)
2. Remove the backing paper from the spacer, attach the spacer to the flange of the fan body. The holes on the spacer should line up with the holes on the flange. (Fig. 24)
3. Secure the suspension bracket into bracket cover of the adaptor (for 24-inch joists, refer to Fig. 2 on page 4). Secure the suspension bracket I into bracket cover at the back of the fan body (for 12-inch joists, Fig. 25-2).

4. Secure the suspension bracket to the wall stud using long screws (ST4.2X20). Secure the fan body and spacer to stud using long screws (ST4.2X20). (Fig. 25)

6. Refer to the Fig. 12-3, 12-4 (page 9) and Fig. 7 (page 8) of the original installation instruction to complete the motor/grille assembly installation.

PRODUCT SERVICE

Warning Concerning Removal of Covers.

The unit should be serviced by qualified technicians only. No service information is provided for customers. Your product is designed and manufactured to ensure a minimum of maintenance. However, should your unit ever require service, a nationwide system of factory service centers and AUTHORIZED INDEPENDENT SERVICE CENTERS is maintained to support your product's warranty. (In the U.S.A., call 1-866-292-7292 to Customer call center.)
