Egg®

World's Best Smoker and Grill!

The Original American Designed Ceramic Cooker

www.biggreenegg.com

Welcome to the Big Green Egg, the Original American Designed Ceramic Cooker. Derived from an ancient clay cooker called a "kamado," the Big Green Egg has rewarded its owners with amazing results since 1974. This catalog will introduce you to this "EGGstraordinary" product, its advantages, and to what some "EGGheads" (dedicated owners of the Big Green Egg) have to say about the EGG®.

Complete Outdoor Cooker With its unparalleled flexibility of use, you can use your Big Green Egg for everything from grilling a steak to slow cooking a tender brisket to baking a loaf of bread. Vegetables – corn, potatoes, mushrooms, onions – and even desserts are superb. You can cook everything that you need for an entire meal at once!

Moisture Retention The Big Green Egg is made using space-age ceramics that were developed specifically for our product. The EGG retains heat and moisture so well that foods do not dry out! Meats and other foods undergo little or no shrinkage and are tastier because the natural juices and flavors stay locked inside.

Easy to Start The Big Green Egg reaches cooking temperature and is ready to use in approximately 10 minutes. Lighting the natural lump charcoal is quick using a natural fire starter or an electric lighter; no lighter fluid should be used. The inventive design of the EGG draws air into the lower draft door, through the charcoal, and out of the damper top.

Easy Temperature Control You can grill, smoke and bake at exact temperatures by adjusting the dampers. You have total control over the temperature, maintaining accuracy within a few degrees! The temperature gauge in the lid gives precise temperature readings from 0°F to 750°F.

5 EGG options to choose from

XLarge	205 lbs – 24" grid
Large	140 lbs – 18.25" grid
Medium	95 lbs – 15" grid
Small	65 lbs – 13" grid
Mini	30 lbs – 9.5" grid

Versatile – Efficient – Easy to use

Easy Clean Up The Big Green Egg® exterior has a lifetime baked-on glaze that maintains its good looks and easily wipes clean. Inside, the heat burns off any grease build-up – like a self-cleaning oven.

Year–Round Use The Big Green Egg is easy to use in all climates, even in freezing temperatures, snow or rain.

"It's a charcoal grill that really does do it all. It grills, smokes and bakes." ...Southern Living

"Here's some advice for your readers: Get a Big Green Egg griller and smoker, which is great for maintaining temperature consistency. It's also quite efficient because a very small amount of charcoal can get the EGG® quite hot – and keep it hot!"

...Food & Wine Magazine, Letter to the Editor

Big Green Egg®

Your Big Green Egg includes...

- Precisely molded ceramics bonded with a green, non-toxic glazed exterior that won't fade, discolor or peel
- Hinged band for easy one-hand opening and closing
- Non-jamming, stainless steel draft door with a mesh screen that minimizes the potential for burns from stray sparks
- Cushioned gaskets for improved insulation and seal
- Heavy porcelain-coated grid for easy cleanup
- Dual function metal top for precise temperature control
- Precision external temperature gauge
- Instructional CD/DVD
- Manual

"Green Eggs & fans - Music has Deadheads. Football has Cheeseheads. And Barbecue has Eggheads. You'll know this last group by the egg-shaped green grills they'll be standing next to, tongs in hand, looking to extol the virtues of the Big Green Egg. Their mantra goes something like this... It's foolproof, fuel-efficient, and can cook anything from fish and steak to pizza and pie. You have to get one. Now."

Bon Appetit Magazine

The Big Green Egg® was introduced in 1974 and has earned its reputation as the World's Best Smoker and Grill. Since then, we have become the world's largest producer and international distributor of ceramic kamado style cookers. Your Big Green Egg investment is protected by a company with over 35 years of experience and a reputation for excellent customer service. Imitations have come and gone, but the Big Green Egg is the original. Look for the Big Green Egg logo molded into the lid!

The Big Green Egg is the most unique barbecue product on the market with more smoker and grill capabilities than all other conventional cookers combined.

Smoker The ceramic double-wall construction of the Big Green Egg makes it a superior smoker. Precisely controlled smoking temperatures give succulent results with turkey, ham, lamb, chicken, ribs and all other barbecued meat.

Grill You can sear steaks, hamburgers, pork chops, fish and seafood, resulting in a flavor-packed crust unmatched by other grills. High temperature grilling – even at 750°F – is quick and easy!

Oven The Big Green Egg bakes bread, biscuits, pizza, muffins, cookies, cakes and even pies better and quicker than your kitchen oven! You'll get a "brick oven" flavor and crust. You must try this to believe it! It's actually hard to burn foods or ruin a cookout in the Big Green Egg. The EGG® is, very forgiving – good news for beginners.

Big Green Egg®

Features of the Big Green Egg

- Ready to cook in 10 minutes with no lighter fluid
- Ceramic walls retain heat with accurate temperature control and no hot spots
- There is no need to add more charcoal while cooking; unburned charcoal can be reused
- No constant tending required; with enclosed cooking there are no grease flare-ups
- The Big Green Egg withstands temperature extremes from below 0°F to 1800°F
- Can be used year-round, even in freezing temperatures and rain
- Surface stays cooler than metal grills and is safer around children
- Weatherproof ceramics won't rust like metal
- Handsome, decorative and unique design

Cooking in the Big Green Egg is easy – even your mistakes taste better than your successes cooked on an ordinary grill!

- *The Big Green Egg is Number 1! More are sold each year than all other kamado style cookers combined.*

- *There are more Big Green Egg dealers in the US and abroad than dealers for all other kamado style cookers combined! If you move, it will be very convenient to locate a local dealer.*

- *It is estimated that seven out of ten kamado style cookers in use today are a Big Green Egg product.*

Better than Water Smokers

A water smoker is made of metal and requires a pan of water to keep foods from drying out. Water smokers are very slow, taking up to 12 hours to smoke a turkey or ham. It is difficult to maintain temperatures, on a cold or blustery day they become inefficient. *The Big Green Egg®:*

- Cooks your ham or turkey to perfection in just a few hours
- Minimizes drying heat loss; your foods retain their moisture
- Dispenses with the need for messy water pans and frequent refilling
- Makes cleanup a breeze; there is no greasy mess
- Uses very little charcoal and produces very little ash

Better than Gas Grills

The Big Green Egg offers the best of both charcoal and gas grilling options – fast start time and charcoal flavor. *The Big Green Egg:*

- Fires up in 10 minutes
- Cooks juicier, more succulent foods
- Allows you to grill meats rare, medium, well done, or anything in between
- Cooking time is faster than on a gas grill
- Reaches a hotter searing temperature than ordinary gas grills

Better than Kettle Grills

Kettle grills rarely cook evenly and they tend to have hot spots. *The Big Green Egg:*

- Retains, circulates and radiates heat evenly for perfectly cooked meals
- The EGG® holds the heat – the kettle loses heat, especially in cold or windy weather
- The Big Green Egg keeps food moist – the kettle dries food out

EGG Nest *Rolling metal cart adds mobility*

- NEST-XL For XLarge
- NEST-LG For Large
- NEST-M For Medium
- NEST-SM For Small

Cypress Tables – Long

- YXL4 For XLarge, 60.5" long

If you are looking for a grill, you have found it here; the EGG® is the BEST! I've had mine for 18 months and it does it all. It will be the last grill you ever buy!

Michael... Monroe, LA

A friend purchased the Big Green Egg® for our monthly cookouts. At first we were all skeptical, but after numerous PERFECT meals we are all in love with its capabilities! At this time I am recommending it to all my other friends and family! Definitely invest in this cooker if you are serious about BBQ or smoking. I'm sure you won't be disappointed!

Jim... Miami Beach, FL

The Big Green Egg is the best, we enjoy using it year round, bourbon chicken is like none other. The new BGE Chiminea is also a great addition to our entertaining fun and complements its cousin.

Ed... Wanamassa, NJ

Being from Memphis, I thought I had tasted the best in pork BBQ, until I cooked it on my new Big Green Egg! My kids still have fork wounds from fighting over leftovers.

Glen... Allen, VA

I bought an EGG for my husband for Father's Day. I may never have to cook again! The BEST smoked salmon and ribs ever. We had guest over the other night and I think we sold two more EGGs for you!

Holly... Atlanta, GA

I cannot tell you how happy my family is with the EGG! We just completed our 1st winter with the EGG and rain or snow it just cooks like there is no tomorrow! To be quite honest, I enjoy getting the EGG going in the middle of the winter and just watching the aroma drift to some of the neighbors' yards. As for my neighbors, they are still waiting for the weather to break to use their grills.

Doug... Ronkonkoma, NY

Just got the Big Green Egg and now everyone who comes to dinner wants one. Can't believe how great the food is. No more deep fried turkey at Thanksgiving, now it will be cooked in our EGG.

Chris ... South Prairie, WA

Just bought an EGG and gave it a workout over the weekend. Found it easy to use. I thought that regulating the heat might be a problem, however it was very easy to keep it at the 250°F mark and the pork butts were outstanding. The burgers on Friday night and the chickens on Sunday were all very flavorful. Also cooked some veggies and dessert on it too.... Yummy! I think we made the right choice when we bought the EGG.

Joe... Concord, NC

Kevin Rathbun, EGGhead, executive chef and Atlanta restaurateur says, "I love the Big Green Egg. I especially like to cook 'low and slow'. Its moisture retention is better than any product out there!"

Big Green Egg

The World's Best Smoker and Grill

The Big Green Egg Chiminea

The Big Green Egg Chiminea offers the warmth and ambiance of an outdoor heater with our same ceramic technology. Plus it can be used as a portable barbecue grill – excellent for camping and tailgating. It withstands rain even when hot, uses wood or charcoal, has a screened front for safety and has an optional stand and cooking grid. The Big Green Egg Chiminea is a great addition to your deck or patio!

- CHIM Chiminea
